

## Look out for Grip

Is Here, There, Everywhere.

Today You are Well; Tomorrow You May be Ill; Next Day Death May Stare You in the Face. It is a Dangerous Disease. Prompt Attention is Imperative.

The great danger from LaGrippe is not so much in the severity of the acute attack, for comparatively few deaths occur from simple grip, but in the terrible after effects which so frequently follow it. When the nerves have been prostrated by the busy little grip germs and the whole system is in a relaxed and congested condition, it requires but little neglect or indiscretion to bring on bronchitis, pneumonia, or quick consumption. Fortify the system with Dr. Miles' Nervine and Grip will pass you by. But if you have it, or are suffering from its after effects, there is nothing that will help you so quickly and so surely back to health and strength as Dr. Miles' Nervine and Tonic.

Mr. H. G. Cordes, 44 Market St., Charleston, S. C., writes: "The after effects of the grip rendered me a weak, nervous, prostrated invalid, and I became seriously alarmed. I tried numerous tonics, compounds and other remedies for the upbuilding of a shattered nervous system, but without benefit, until a friend advised Dr. Miles' Nervine and Tonic with the result that today I am a new being, full of vigor and strength, entirely restored to health and happiness by these wonderful remedies. I can heartily recommend them to everyone suffering general debility from any cause, knowing full well they will find in them new life, new hope, new health, and strength."

All druggists are authorized to sell Dr. Miles' Nervine on a guarantee that first bottle benefits or money refunded. Be sure you get Dr. Miles' Remedies. Take nothing else. Write us about your troubles and ailments and we will give you the honest advice of a trained specialist absolutely free. Book on heart and nerves sent free.

## AGAINST EXPANSION

Henry U. Johnson Attacks the Administration's Philippine Policy.

## ARMY BILL UNDER DEBATE

Independent Spirit of the Senate Exalted—Bryan's Blunder—Will Never Vote For a Standing Army of 100,000 Men—Great Cost of the Military—We Have Become Mendicants.

Washington, Jan. 26.—Not since the stirring days before the declaration of war last spring has the house witnessed such an exhibition of excitement and such scenes of unbounded enthusiasm as occurred yesterday when the two Republicans, Mr. Johnson, the Indiana member, and Mr. Dolliver of Iowa, locked horns on the question of expansion. The army bill, which was under debate, was swallowed up in the broader question of our future national policy and the debate was lifted from the dead level of mediocrity into absolute brilliancy. Mr. Johnson secured time from the Democratic side to attack the position of the administration. It was not the first time he has broken away from his party on public questions. On past occasions he has won a reputation as a master of invective and the knowledge that he was to speak had attracted an enormous crowd to the galleries. Yesterday he added to his reputation. With satire, irony and wit the keen thrusts of his logic were driven home.

**President's Course Denounced.**  
He denounced the president's course as a "policy of evasion" and charged that his supporters were conjuring up specters to drive in the opposition. It was declared that our failure to take the Philippines would precipitate a general European war, that all the nations of Europe would scramble for what we left if we withdrew. He said he had seen no such disposition except on the part of Germany, and she was actuated by the example of our greed. If we set the example and withdrew, recognizing the independence of the Philippines, others would do likewise. But if other countries did pounce down upon the islands, let them do it. We were not expressly or implicitly responsible. If they did they would be but pursuing their traditions. Let us see that we do no wrong. The evil was theirs. If there was, he said, to be a European war, let us, in God's name, keep out of it. The cry went up, "Ratify the treaty and stop the war." The president arrogated to himself the right to speak for 70,000,000 people. "I thank God," shouted Mr. Johnson, "for the spirit of independence in the senate of the United States, irrespective of party. Bryan never made a greater blunder than when he said the treaty should be ratified and our policy determined afterwards."

**Should Be Fought to a Finish.**  
"Andrew Carnegie was nearer right," he said, "the treaty should be fought in the dark, not the open. I say we should fight it to a finish. We should meet this whole question at the threshold and strangle it to death. Public sentiment should be aroused. It is being aroused, as evidenced by the great public meetings in New York and Philadelphia, and my word for it, it will not be many months before the tide of public sentiment which the president vainly imagines is now carrying him to a second term will recede and leave him high and dry. The voice of the people will rebuke the spirit of commerce which has supplanted the spirit of liberty."

"If the treaty is ratified without being coupled with a resolution declaring for the ultimate independence of the islands it will be the death knell of all our efforts to stop the torrent." He

When we read of an elephant hunter who has been trampled to death in the wilds of India, we wonder at the foolishness of a man who will travel round the world and endure all manner of hardships, in order to court death in a far away jungle. A man does not have to make a journey to India in order to court death in a manner equally foolhardy.

Thousands of hard working men are daily courting death in a much more certain way, without ever leaving their native villages or cities. They are the men who neglect their health. They are the men who court death from consumption, or some other deadly disease due to improper or insufficient nourishment. The man who suffers from bilious or nervous disorders, indigestion, who has lost the power to eat, rest or sleep, and who fails to take prompt steps to remedy these conditions, is courting death in the guise of some fatal malady. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of bronchitis, throat and laryngeal affections that lead up to consumption. It restores the cough, facilitates expectoration and restores the lost appetite. It corrects all disorders of the digestion, makes the assimilation of the life-giving elements of the food perfect. It invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It is the best of all known medicines for nervous disorders. Dealers sell it and have nothing else "just as good." "I had a bad cough and got so low with it that I could not sit up," writes Mrs. M. G. Gray, of New London, Conn. "Our family physician told my husband that I had consumed. I had pains through my chest and spit up blood. I took your 'Golden Medical Discovery' and it cured me. It saved my life."

would vote for a bill to reorganize the army, but before God he would never vote for a standing army of 100,000 whose ultimate object was to establish a colonial system. \* \* \* \* \*

**Cost of Expansion.**

The Indiana member now turned to the "cost of expansion." He detailed the cost of the war and the estimates of \$145,000,000 for the military establishment and \$47,000,000 for the naval establishment for the next fiscal year. It showed, he said, that our war budget exceeded that of the great military powers of the world. It was within \$3,000,000 of the cost of Great Britain's vast establishment by which she ruled her colonial empire; it was more than the war budget of Germany, than of France or any other nation on the face of the globe. And this was to realize "the wild dream of expansion."

In closing he said: "We have witnessed the splendid achievements of our soldiers and sailors, and have inspired in the old world a feeling of respect. This country, the beacon light of liberty, this locked and entrenched continent, this proud and erect nation which never in its history was obliged to ask a favor of any other country on earth, now depends upon the intervention of England to keep other powers off its back. We have become a miserable mendicant, dependent upon the mother country. We are compelled to abandon the cardinal principle of protection and submit to the 'open door' policy."

**Mexican Extradition Treaty Expired.**

Washington, Jan. 26.—The Mexican extradition treaty has expired, according to the notice given by the Mexican government. Its lapse finds a remarkably small number of fugitives from justice in either country to profit from the fact. So far as known at the state department Santiago Morphy is the only Mexican fugitive now at large in the United States. In Mexico there is one American, James Temple, who is a

fugitive from justice and against whom extradition proceedings are now in progress, the charge being unlawful homicide, and in his case there is reason to believe Mexico may grant extradition.

**HOUSE INQUIRY**  
Into the Right of Members to Hold Seats and Outside Offices.

Washington, Jan. 26.—The inquiry as to the right of members of congress to hold outside offices was resumed before the house committee on judiciary yesterday. Chairman Henderson stated that General Wheeler did not care to be heard orally. The general's written statement was read and discussed; also statements submitted by Representative Gardner of New Jersey, a member of the industrial commission, and Representative Colson of Kentucky, a colonel of volunteers.

Mr. Gardner urged that the places on the industrial commission were not offices in the meaning of the constitution. Colonel Colson stated that he had not drawn any army pay, and since congress had assembled had drawn neither congressional nor army pay.

This closed the hearings and the committee went into executive session to determine upon its report. No decision was reached on the status of General Wheeler and other members and the subject was made a special order for next Wednesday.

**Reception to the Army and Navy.**  
Washington, Jan. 26.—President and Mrs. McKinley gave a reception at the White House last night to the officers of the army and navy and the marine corps. Invited to meet them were the cabinet circle, the diplomatic corps and a contingent of congressional and resident society. The affair was one of the most brilliant thus far this season, the officers appearing in the full uniform of their rank.

**Extra Pay for Volunteers.**  
Washington, Jan. 26.—Secretary Long has prepared the draft of a bill which he will urge congress to pass, providing for extra pay to officers and enlisted men of the volunteer forces of the navy, two months' extra pay where they served creditably beyond the limits of the United States and one month's extra pay where they served within the limits of the United States.

**Ambassador White Instructed.**  
Washington, Jan. 26.—The state department has forwarded to Ambassador White at Berlin full instructions as to the presentation he is to make the German minister for foreign affairs relative to the indignity reported to have been offered to chief justice of Samoa by the German officials at Apia.

**Peace Treaty.**  
Washington, Jan. 26.—Two executive sessions of the senate were held yesterday, at both of which the peace treaty was considered. A resolution was adopted to take the vote Feb. 6 at 3 o'clock.

**Indiana Postmasters.**  
Washington, Jan. 26.—Indiana postmasters were appointed yesterday as follows: Victor, Francis M. Fodrell; Volga, Frank H. Judkins.

**\$100,000 FIRE**  
Valuable Medical Library and a Newspaper Burned at Johnston, Pa.  
Johnstown, Pa., Jan. 26.—All of the volunteer fire companies of the city turned out last night to battle with the worst fire in Johnstown's history. Within two hours' time flames consumed \$100,000 worth of property. The fire started in the composing rooms of the Herald Printing company. The heaviest losers are the Herald Printing company, John H. Waters, the Johnstown Supply house and the Cambria County Medical society. The loss to the society is one which can never be made good. It includes the Toner Library—7,000 volumes of medical books, a number of which were from 100 to 300 years old—totally destroyed.

## REDHOT POKER

**Stepmother's Mode of Chastizing Her Stepdughter—Woman Arrested.**  
Chicago, Jan. 26.—Mrs. Mary Bretz was arrested yesterday on a warrant sworn out by her stepdaughter, Maggie Bretz, a 14-year-old girl, who charged the stepmother with using a redhot poker as means of chastisement. In support of the story, the girl exhibited several severe burns, which she claimed were inflicted Tuesday. The girl says that under the branding process Mrs. Bretz threw her to the floor and applied the poker to her face and hands until the child's screams of agony caused her to desist for fear of the police. The alleged motive for this advanced course in cruelty is said to be a desire on the part of Mrs. Bretz to drive the girl from home.

## BANK CLOSED

**Proprietors of the Planters of Kansas City Placed Under Arrest.**  
Kansas City, Jan. 26.—The Planters' bank was closed yesterday and on the order of Secretary of State A. A. Lesueur and Assistant Attorney General Jeffries, the proprietors, Leonard Imboden and S. F. Hancock, were arrested pending an investigation. The bank was chartered on Jan. 10 last, with a capital of \$25,000 paid up.

On Jan. 20, in response to a request from State Bank Examiner Arnold, the resources were put down as a credit of \$20,112 in the Avenue Exchange National bank, St. Louis; \$28,306 with Blair & Co., New York, and \$33,184 with the Union National bank, this city. The cash on hand was placed at \$8,500. The liabilities included \$49,000 due the Interstate Livestock company, and \$17,000 due the Imboden company. Mr. Arnold ascertained that there was no cash on hand and that neither of the banks named held any of the Planters' money.

## THE BANCO ESPANOL

Uncertainty as to Its Future Relations Causes General Apprehension.

## REMNANT OF OPPRESSION

Every Influence in the Island Is Arrayed Against the Old Spanish Bank—Cubans Claim It Has More Influence at Washington Than Cuban People.

Havana, Jan. 26.—The military administration is as yet unable to make any announcement regarding the future relations of the Banco Espanol to the collection of taxes. The uncertainty as to what Washington will do causes general apprehension. Since the publication of the terms of the contract of Jan. 7 every influence in the island has been arrayed against the bank as a remnant of Spanish oppression, but the Cubans are saying that the bank has more influence at Washington than the whole Cuban people.

Major General Wilson has ordered the distribution in the towns of Matanzas of 375,000 rations. The city institutions are amply provided for.

The Cuban general Morlet has been commissioned to ask permission of the American authorities for the construction of a central Cuban railroad from Pinar del Rio to Santiago de Cuba by British and French capitalists, who are ready to undertake the work.

Collector Bliss will establish on Feb. 1 a system of bonded warehouses, hitherto unknown here. They will prove a great convenience to commerce and will be largely patronized. He will also establish a system under which an importer may receive, immediately after it is unloaded, 90 per cent of the cargo, the remaining 10 per cent being held for appraisal and the levy of duties on the whole. This will tend to prevent congestion and will allow of goods being placed on the market with the least possible delay. At present Collector Bliss makes a practice of delivering a miscellaneous consignment upon payment of the estimated dues, after examination, of course, to prevent smuggling.

Seventy-five American women met in this city yesterday to arrange for a memorial of the anniversary of the destruction of the United States battleship Maine, on Feb. 15. Mrs. Estes G. Rathbone, president, and a letter from Captain Sigbee was read suggesting as features of the programme prayer, singing (if desired), addresses by one or two prominent persons and a volley fired over the graves by a battalion of marines from the United States battleship Texas. Captain Sigbee wrote that he had granted the request of a deputation of sailors and marines of the Texas to be allowed to decorate the graves.

Major General Brooke, Major General Ludlow, Major General Lee, Captain Sigbee and others will be invited to take part in the ceremony.

## SAGASTA WON'T WAIT.

**Will Convoke Cortes Whether United States Ratifies Treaty or Not.**  
Madrid, Jan. 26.—The premier, Senor Sagasta, announced yesterday that the government has decided to convoke the cortes during the second half of February, whether the United States senate ratifies the treaty of peace or not.

An official dispatch from the Sul island, of the Philippine group, declares that all is well there and that the Spanish occupation continues.

Dispatches received by newspapers here assert that the insurrection of the Filipinos is spreading considerably. A native regiment which was disbanded by the Spanish, it is alleged, enlisted as a body in the service of Aguinaldo.

According to figures published here 80,000 Spanish soldiers perished, chiefly from sickness, during the late campaign in Cuba.

## Summer Home for Troops.

Pinar del Rio, Cuba, Jan. 26.—The summer home of the First United States regular infantry will be a massive Spanish barracks which has been disinfected. Surgeon General Sternberg approves taking the regiment out of the tents when the weather is warm and a third story will be put on the building so as to accommodate all the regiment. The structure cost \$500,000 and was 25 years in construction.

## CAME TOO LATE

**Check For \$5,000 For a Man Who Died in New York of Starvation.**  
New York, Jan. 26.—A sick and destitute man, 55 years old, was taken from an outside tenementhouse two weeks ago to the department for outdoor poor. He gave the name of Lawrence Schrader and he was dying from want of nutritious food. Yesterday a letter addressed to Schrader was brought to the superintendent of the institution. It contained a check for \$5,000 and had been sent from England as Schrader's long delayed share in his father's estate. Schrader, however, had died, and the money arrived just in time to prevent his burial in the potter's field.

## West Virginia Elects.

Charleston, W. Va., Jan. 26.—After a contest of over two weeks Internal Revenue Commissioner Nathan B. Scott was yesterday afternoon elected United States senator from West Virginia for the term ending March, 1905. His seat will be contested.

## Senator Proctor Goes to Cuba.

Washington, Jan. 26.—Senator Proctor of Vermont left here yesterday afternoon on a trip to Cuba. He expects to make a tour of the island. He is accompanied by his family.

## JOHN SHERMAN

Ex-Secretary of State Strongly Opposed to Expansion.

New York, Jan. 26.—In an interview yesterday John Sherman forcibly expressed himself as against expansion. The ex-secretary of state is quoted as saying in part:

"I am decidedly opposed to the invasion of the Philippines. The idea of our country forcing its way in these islands and forcing its government upon the 7,000,000 or 9,000,000 population is monstrous. It is subversive of the basic principle of our government, that the just powers of government are derived from the consent of the governed, and it is in violation of the traditions of our country."

"Then, if you were in the senate you would not vote to ratify the treaty of Paris as it stands?"

"If I were in the senate I would not vote to ratify as it stands. I would vote to withdraw from the islands as soon as possible."

"The papers say that 4,000 soldiers have just been sent to Manila. Why were they sent? Are we going to war against a struggling republic? They have been fighting for many years against Spain and have practically driven Spain out. Are we to take the place of Spain in tyrannizing over these struggling people?"

## GRANT G. GILLET

Creditors are Reported to Be Negotiating a Compromise with the Plunger.

El Paso, Tex., Jan. 26.—C. R. Troxal, partner of Grant G. Gillett, the noted cattle plunger, has arrived here from Chihuahua, accompanied by Charles F. Hunt and James H. Arnold of Kansas City. Mr. Hunt has been negotiating for some time to effect a compromise with Gillett's creditors. He returned about a week ago from Kansas City, where he had been engaged in these negotiations. While passing through this city he was asked what success he had met with, but positively declined to say a word on the subject. A few days later, however, J. H. Arnold, who was one of the largest creditors of the cattle plunger, arrived in Chihuahua from Kansas City, and has since been in consultation with Gillett and Troxal. He refused to admit or deny anything concerning the progress of the negotiations, but from the appearance of things and what could be learned from others it is believed that they are progressing very satisfactorily.

## CHEAPER THAN ANIMALS

**Are Human Beings For Experimental Purposes in Vienna Hospitals.**

London, Jan. 26.—A Vienna correspondent says: "It has been discovered that the physicians in the free hospitals at Vienna systematically experiment upon their patients, especially newborn children, women who are enucleated and persons who are dying. In one case a doctor injected the bacilli of an infectious disease from a decomposing corpse into 35 women and three newborn children. In another case a youth who was on the high road to recovery was inoculated and he died within 24 hours."

"Many dying patients have been tortured by poisonous germs and many men have been inoculated with contagious diseases. One doctor who had received an unlimited number of healthy children from a founding hospital for experimental purposes, excused himself on the ground that they were cheaper than animals."

## SENSATIONAL SUIT

**Brought Against Controller of the Treasury Dawes.**

Memphis, Jan. 26.—A sensational bill has been filed in chancery court here against Charles G. Dawes, controller of the currency, and the officers of the Continental National bank of this city, a bank capitalized at \$600,000. The bill is filed by W. M. Cox, a resident of Shelby county, Tenn., who sues in behalf of himself and of all the other stockholders of the Continental National Bank of Memphis. The bill charges Controller Dawes with refusing to expose the condition of the bank after being officially informed of a plan to depress its stock, and of violation of the banking laws by the cashier, H. L. Armstrong, which information was furnished him by the teller of the bank and by United States Bank Examiner J. S. Escott.

## PROBABLE CLEW

**To the Murder of Mrs. Kate J. Adams of New York.**

Cincinnati, Jan. 26.—What may be an important clew in the murder case of Mrs. Kate J. Adams of New York, has been found in the fact that before the murder of Mrs. Adams, Von Mohl & Co., of Cincinnati, dealers in medicine, received a letter from H. Cornish, 1620 Broadway, New York, asking for a sample of medicine advertised in a New York newspaper. The letter was written on stationery of the Knickerbocker Athletic club. Mr. Brewster of Von Mohl & Co., after reading of the murder and of the connection with the case of Cornish, turned the letter over to the police. It is now in New York where the handwriting can be compared with that of Cornish.

## Hocking Valley Coal Operators.

Columbus, Jan. 26.—The Hocking Valley operators refuse to say whether they will abide by the Pittsburgh agreement. They did not attend the joint conference and hence are not bound by its action. A meeting will be held in a few days at which the Hocking operators will discuss the situation and decide upon a line of action. It is understood they are not satisfied with the scale and will endeavor to secure more advantageous terms with the miners of the valley. There is no apprehension of a strike.

### WEEKLY.

One Year in Advance \$1.00

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

Is another column—a communication from a commercial traveler in support of a two-cent fare law. The writer speaks of the probable advantage such a law would be to the railroads in the way of increased business, which might be true so far as we know. But we are inclined to say as we have previously said, that before such a law be enacted the question should be thoroughly considered from all sides. While the railroads might benefit by an increased business, would the masses of the people be benefitted? Would it not be a detriment to business interests in the smaller cities and towns? Would not lower fares help largely to centralize trade more and more in the large cities to the detriment of the home merchant?

REPRESENTATIVE ROBERTS, of Jefferson county, has introduced in the House a bill requiring non-resident students of Indiana University, the State Normal and Purdue University to pay tuition in addition, to the incidental charges now paid by all students. It is said that more than one hundred students of other states are being educated in our state schools. Michigan University is perhaps the largest state university in the United States, and is perhaps as well managed. The board of regents of that school charge each student who is not a bona fide resident of Michigan a stiff tuition. We believe that as Indiana state schools are kept up by Indiana taxpayers, that Indiana should adopt the plan of Michigan and other states and charge tuition to non-resident students.

We would like to hear from some one who has studied the subject why the non-state educational institutions should not be granted representation on the State Board of Education? Why should the State colleges be practically given control of that board and allowed to discriminate against the graduates of non-state colleges in the matter of teachers' licenses? Why should not a certain degree of proficiency be the standard, and not the school from which the certificate issues? The state school men who are in the saddle now, will realize later the unwisdom of trying to "be the whole thing," when their obstinacy cultivates a sentiment which will not only unseat them, but may go farther and jeopardize the state schools themselves. They had better make reasonable concessions than lose all.—Rushville Republican.

## LEGISLATIVE COMMENT.

The house committee has recommended the passage of senate bill 49 introduced by Senator Shea looking to the protection of pheasants.

+++  
The passage of the bill authorizing cities to purchase waterworks has been recommended by the house committee.

As anticipated last Monday, Secretary Hurty, of the State Board of Health, started his crusade against the microbes in the atmosphere of the assembly halls in the Statehouse yesterday, and although his apparatus was exposed only a few minutes, he secured what is likely to be a well-developed crop. At the close of the session yesterday afternoon he took a sample of the air for analysis, and while the results will not be fully apparent until the microbes have been "cultured" and prepared for microscopic examination, the legislative atmosphere, judging from the amount of "life" in it, would suggest that "there are millions in it."

The senate has agreed to take a vote on the peace treaty, February 6.

HON. NATHAN SCOTT has been chosen United States Senator by the West Virginia legislature. Senator Scott and John Auld Foreythe, of this city, were schoolmates in their boyhood days, and of course our fellow townsman is pleased over the success of this friend of his youth.

### B. P. O. E.

Active preparations are being made for the initiation of the lodge of Elks here Feb. 1. The work will be done by the New Albany lodge and there will be a good attendance from New Albany, Jeffersonville and Louisville. The visitors will arrive here on No. 1 Wednesday. Dinner will be served and the work will begin at 2 o'clock p. m. At the conclusion of the work about 10:30 p. m. a banquet will be served at the New Lynn hotel, and the visitors will leave for home on the early train Thursday morning.

Reception committee: J. H. Peter, Jack Shiel, W. L. Johnson, L. C. Wallick and Carl Wood.

Banquet committee: Henry Price, George Schwenk, Nathan Kaufman.

The work will be done in the K. of P. hall as the Elk's new hall in the Pfaffenberger building will not be completed in time.

## A Commercial Traveler's Views.

EDITOR'S REPUBLICAN:

As to the proposed legislation on railroad fares. There seems to be a diversity of opinion. Many advance the theory that a two cents per mile rate would cause the railroad companies to reduce the wages of their employees. When the United States government reduced the postage from three to two cents there was such a large increase of business that the postoffice department was enabled to increase the salaries of its employees in many instances. It is a question as to whether present railroad fares average much over two cents per mile. Many travel on free passes. Excursion rates vary from half a cent to two cents. Although we commercial travelers have a two cent rate, it is under such restrictions that it results in a great loss of time and annoyance to us, as well as the station ticket agents. Those who have to pay three cents per mile are not furnished with any better accommodations than those above mentioned, in fact are often compelled to stand up in the cars, as often the excursionists fill all the seats at the starting point of the train. On less distances than 10 miles the railroad companies would be allowed to charge a higher rate than two cents per mile. Further, a straight two cent per mile rate would obviate rate cutting, the traffic associations and ticket scalpers.

COMMERCIAL TRAVELER AS MAN ON THE ROAD.

LaGrippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by C. W. Milbous.

### Reduced Rates.

To New Orleans and return account Mardi Gras festivities the Southern Indiana railway will sell tickets from Feb. 6 to 13 inclusive; good returning up to and including Feb. 23, at the exceedingly low rate of one fare for the round trip. H. H. Roseman, Gen. Pass. Agt., Bedford, Ind. J. M. Clark, ticket agent, Seymour.

### Spain's Greatest Need.

Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life in to every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by W. F. Peter, druggist.

### Shot While Insane.

Dunkirk, Ind., Jan. 25.—Benjamin C. Beal, who shot Patsey Webb and William Thomas here last February, was acquitted yesterday in the circuit court on the ground that he was insane at the time he did the shooting. It is said that his mind became unbalanced because of the death of a beloved child.

### He Answered Every Call.

Hagerstown, Ind., Jan. 25.—Dr. N. F. Canaday has lived here continuously for 30 years, and in that time he has never failed to attend to every call made upon him to attend the sick, has not been seriously sick himself, and has never taken a vacation.

### Music Shops on Ocean Liners.

From a single venture five years ago small shops for the sale of musical instruments have become a regular thing on the large liners that sail from England to India, Australia and the colonies.

From the beginning the music shop was quite a success. Perhaps most of its trade runs in the direction of cheap banjos, which are bought by almost every man on board before the voyage as a means of passing the time.

Valuable violins are often more easily disposed of at sea than on shore, while even pianos meet with at least four or five customers each voyage, many people disposing of their own instruments before starting and being readily persuaded into buying others to avoid the middleman on landing.

The seaboard music shop agent usually travels first class, and as he is generally possessed of gentlemanly manners and glib tongue he meets with better opportunities for pushing his wares than he would get under ordinary circumstances.—London Globe.

## SNOW EATING MANIA.

A PECULIAR HABIT THAT DEVELOPS IN THE KLONDIKE.

The Appetite, When Once Acquired, Is Extremely Difficult to Control, and to Indulge It Means a Short Cut to the Grave.

Every great discovery in the world's history has brought with it an accompanying affliction, and it remained for the Klondike to develop a peculiar mania that threatens to outrival opium eating. Among the residents of the far north it is known as the "snow habit," and it is said to be incurable. A returned Klondiker tells the strange story.

"There are many strange things in the Klondike," said the narrator, "but perhaps the strangest and that about which nothing has been written so far, is the dissipation caused by eating snow. In the north, when the thermometer reaches 80 to 40 degrees below zero, a mouthful of snow is like molten metal. It brings an inflammation to the palate and tongue and it is impossible to quench the thirst. The first advice an old timer offers a newcomer in the region is 'Don't eat snow.' There are men in that country, once hearty, robust miners, now weak, effeminate creatures, whose fall can be traced directly to the time they began munching snow.

"The matter has been but little investigated, but the scientists who have examined the subject say that the waters of the north are rich with mineral deposits which are being constantly washed down from the mountains. A certain per cent of this mineral is taken into the air when vapor rises, and the snow becomes impregnated with it. There have been several falls of red snow near Point Barrow, the deposit being of a reddish brown color, due entirely to minerals. Thus it can be seen that a person eating large quantities of the snow takes into his system a corresponding amount of minerals."

While coming down the Copper river last spring the narrator came upon a party of miners where one was dying from the effects of eating snow. He had been a hard drinker, but had run short of whisky. His thirst became unendurable and as water was scarce in mid-winter he had taken to eating snow. Soon he claimed it relieved his appetite for the liquor, but his companions noticed that his appetite for the snow increased until he was consuming enormous quantities. Gradually his skin, which was a dark bronze, grew light, his rugged stature became bent, and even his harsh voice changed to the effeminate squeak of an old woman. His strength gave way, and his companions tried to break him of the habit. He would lie on his pallet and moan pitifully for a mouthful of snow and when opportunity offered would steal unobserved to the doorway and gulp down huge handfuls. At last, seeing death was inevitable, his companions allowed him the snow, hoping to prolong his life. It proved unavailing, however, and one morning the man was found dead.

There are some spots on the Copper river where the snow, when melted and strained through a cloth, shows perceptible signs of minerals, and often gold is found plentifully intermixed, but of course not in paying quantities. Where this comes from is a mystery, but it may be brought from the far north by the heavy winter gales that sweep over this part of the country. It has been said that if the snow could be melted away it would leave deposits of millions of dollars in gold dust on the ground.

The narrator had a close call himself from falling a victim to the snow habit. "It was in the winter of 1896-7," he said, "and I was new to the country. An old miner near Dawson had warned me against eating snow, but I, with my partner, had gone back into the hills on a prospecting tour, and had got caught in a blizzard. We were shy of provisions and on our way up lost the package containing our cooking utensils. This we remedied by broiling our cooked foods, but we had nothing in which to melt the snow. It is claimed that melted snow is harmless, as the metallic deposits it contains sink to the bottom of the receptacle.

"We decided to try it 'raw,' and we did. Whether it was the food or the snow I don't know, but during the week we waited for a chance to get out we had an ever increasing thirst, until, when we were finally able to strike the trail, we were consuming snow at a frightful rate. When we reached our companions, we attempted to assuage our thirst with water, but it did no good. We had acquired a taste for the frozen water, and it seemed to have invigorating qualities. At night we could not sleep unless we took our snow.

"We were fast approaching the degenerate stage when I reached a realizing sense of our condition and undertook to break off. I began by degrees and worked down, but up to the very moment I left the country the sight of the snow always raised in me an inordinate craving. It cost me many sleepless nights and weary days to restrain myself. Had I given way to the habit I would, like many another poor fellow, have lost all ambition and filled an unknown grave in that frozen wilderness."—Cleveland Plain Dealer.

### Dynamite.

Dynamite explodes so rapidly that its force is exerted in the direction from which the greatest pressure comes. That is, if the dynamite be placed on the ground the explosive force is down; if it be hung against a wall its force attacks the wall; if it be hung under an object its force is upward.

The curious fact that corn, potatoes and other plants thrive better when placed in rows running north and south has been proved by Dr. Wolny of Munich. This reduces the shading by each other to a minimum, more uniform and regular light, heat and moisture resulting.

### State Republican League.

The Indiana State League of Republican Clubs will meet in annual session at Ft. Wayne, Feb. 11. A call for the selection of delegates to this convention has been issued by F. E. Holloway, president, and W. W. Huffman, secretary. Preparations for a large attendance are being made.

### Tried and True.

Thousands have tried Dr. Cadwell's Syrup Pepsin for constipation, indigestion and sick headache and have found it true to the claim made for it, viz: that it is the best remedy now before the good people for the relief of stomach troubles. Trial sizes 10c, large sizes 50c and \$1.00 of A. J. Pellen's, Druggists.

### Birthday Celebration.

Mrs. Walter Bray passed her twenty-seventh birthday yesterday and in the evening a number of her friends gathered at her home and assisted in celebrating the event. A number of presents, including a fine clock were received by Mrs. Bray in addition to the good wishes of her friends.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The Band has advised the Opera House Co. to make secure the roof so we don't lose it, for the opening mare will send sky high. 123 13

### Gard of Thanks.

The widow and relatives of the late J. L. Gardiner wish to express their thanks to neighbors and friends and pastors and singers, who so kindly and lovingly assisted at the funeral services which took place December 14th, and at the burial on January 25th at the cemetery. Also we thank the Odd Fellows, who rendered their beautiful burial services at the grave, and so gently and tenderly laid him to rest.

### In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.
